Dear Madam,

### European Regional Measles Rubella Laboratory Network Letter of Laboratory Accreditation for 2018

As part of the annual accreditation procedure, the National Measles/Rubella Laboratory of your country was reviewed by the World Health Organization Regional Office for Europe.

Based on the results of this review, I am pleased to inform you that the National Laboratory is *fully accredited* as a World Health Organization Measles/Rubella National Laboratory for 2018. Enclosed are the scope of the accreditation and the recommendations of the review for your information.

As recommended by the Midterm Review of the Measles and Rubella Global Strategic Plan 2012-2020, enhancing integrated case-based, laboratory-supported surveillance for measles and rubella is a top priority for achieving global and regional elimination goals.

Taking this opportunity, I would therefore like to thank you personally for your ongoing support of the National Measles/Rubella Laboratory and to congratulate staff of the Laboratory with the successful accreditation.

Yours sincerely,

Dr Nedret Emiroglu  
Director  
Division of Health Emergencies and Communicable Diseases
